SPEDA Community Foundation is proud to partner with the SRT Team to make the memorial a reality.

The new memorial will feature two black granite columns measuring 11 feet tall and 17 inches square
— a proportional size to the Twin Towers when they stood in New York City
— and will hold the piece of the north tower I-beam weighing 3,000 pounds between them.

All donors will be recognized on-site with a bronze placard.

A second bronze placard will tell the story of the gifted steel.
